

SY-780/A

1,000
Templates

It's about time
for the ultimate
in attendance recording

- 1,000 Fingerprint templates for biometric verification/identification
- Ensures employees' privacy
- Online/offline modes of operation
- Complex attendance reporting
- Job reporting
- Shop floor control reporting
- Real-time database queries
- **Wireless communication**

SY-780/A

Modes of Operation

- **Verification** - verifying employee's fingerprint versus employee's number and badge. Swiping of badge, or entering code, AND placing of finger verify reporter's identity.
- **Identification** - identifying an authorized person by biometric characteristics only
- **Fingerprint template on smart card** - Synel's SY-780/A have the option of ensuring employees' privacy at all times, by storing the template on the employee's personal smart card, and not in an organizational database. This ensures a fast verification process, as well as an unlimited amount of users per system.

Programming

With the SY-780/A, you have a choice of systems:

Working offline

There is no need for immediate communication with PC during reporting. All controls and checks are done independently by the terminal. With Syncomm, program your SY-780/A terminal to:

- Operate differently according to the day of the week
- Provide single/multi-step or conditional reporting
- Validate data
- Select the input source (magnetic reader, keyboard, etc...)
- Display the information from the internal database

Working online

Working with SY-Server:

- Interactive system with external database
- Data is transferred automatically without polling

General Features

- Scheduling for required functions - for morning and evening periods, set the terminal for "swipe & go"; during the day, leave it set to record jobs.
- Technician mode is available for easy set-up of the terminal.
- Enable the activation of a bell according to the day of the week, regardless of the program that runs on the terminal.
- Scheduling modem operation times.
- Displays time in several formats (US< European, military or 12-hour)

Technical Characteristics

Includes:

- Two relays for bell, door, etc...
- Two sensors (door monitoring etc..);
- Additional serial ports for scale or printers
- Memory: 512 kB, battery-backed
Dynamic distribution of memory mapping
- Display: Backlit LCD, 2 rows of 16 characters
Alarm LED for irregularities notification
- Keyboard: 8 functional keys
10 numeric keys
2 browsing keys
4 control keys
- Optional readers:
 - Bar code (3-of-9, interleaved 2-of-5, code 128, Coda Bar)
 - Magnetic (track I, II, III)
 - Proximity (contactless at 125 kHz)
 - Fingerprint recognition
 - Weigand (26, 37, 44 bit)
 - Smart card
 - Mifare (13.56 MHz)
 - HID
 - Indala

Interfacing

- RS-485 for up to 16 terminals
- RS-232 for Host connection
- Optional:
 - internal 14,400 bps modem
 - Ethernet 10/100 mHz
 - Wireless Wi-Fi 802.11 b
 - Bluetooth Class II

SY-780/A Biometric Versions

	Verification		Identification	
	1000	4000	200	1000
FP-B		✓		
	SY-780/A V/4000			
	SY-780/A I/200		✓	
FP-S				✓
	SY-780/A I/1000			
	SY-780/A V/1000	✓		

Verification: Integrated with magnetic, smart card, proximity and barcode readers

Physical Characteristics

- Dimensions: Height: 17 cm
Width: 25 cm
Depth: 9.5 cm
Weight: 1.120 kg
- Operating temperature: 0 - 40°C
- Humidity: up to 95% RH
- Power Requirements:
 - Operating power - 110/230 Vac @100 mA
 - Back-up battery - rechargeable, included
